

My favorite rowboat, E'lan is for sale. She is a 14' Cosine Wherry, built by me in my garage and launched in 1997. We have been busy rowing the waters of Puget Sound and the Olympic Peninsula for the last ten years. Lake Crescent, Lake Ozette, Juan de Fuca Strait, Haro Strait, San Juan, Port Angeles, and Sequim Bay are just a few of the many places we have been together, in all kinds of weather. In all that time there has been little I could think of that could be improved. She now looks even better in her freshly painted black hull, and new Shaw and Tenney spoon oars. Winning her class in the rowing regatta of the 1999 Port Townsend Wooden Boat Festival will always be remembered as a highlight of our time together.

Her condition is excellent: durable cedar strip / glass-epoxy hull, spruce gunwales, oars, keel and thwarts. Mahogany reinforced oarlock blocks and breasthook. She tracks straight as an arrow with her full-length keel. A custom fit full-length acrylic canvas cover is included. A galvanized trailer is also included in the price of \$3407. Without the trailer the price is negotiable.
